

Covent Garden Area Trust - Looking for Trustees

The Covent Garden Area Trust (CGAT) is a unique charitable Trust established to protect and safeguard the beautiful architecture, environment, and special qualities of London's world-renowned Covent Garden, for some of which the Trust holds a 150-year lease.

The Trust has recently renewed its mission and aims to ensure that it reflects the challenges and opportunities facing Covent Garden in 2022, becoming a collaborative and outward-looking partner in the enhancement and conservation of one of the world's most iconic locations. It would also like to expand its remit to encourage culture and events, as well as working with partners to promote Covent Garden as an area of special interest, distinct to the rest of the West End.

Consisting of a passionate and dedicated group of 11 trustees, CGAT is looking to expand its family, welcoming perspectives from a variety of different disciplines and backgrounds to help further its goals and ambitions and, ultimately, to help Covent Garden overcome the challenges of the pandemic, creating a solid basis for its future and the challenges that lie ahead.

CGAT is particularly keen to hear from the following individuals, however we welcome applications from anyone, and no prior trustee experience is required:

- Those in the arts and entertainment industries
- Those with experience in the legal profession
- Experts in social media and communications
- Those knowledgeable in sustainability and environment matters such as alternative energy, recycling, and sustainable materials
